INTERNATIONAL SYMPOSIUM ON ACCOUNTING INFORMATION SYSTEMS (ISAIS) 2024

June 15-16, 2024 – Paphos, Cyprus

www.isaisconference.org

Call for papers

Hasselt University is pleased to announce the tenth **International Symposium on Accounting Information Systems** (ISAIS), immediately preceding ECIS 2024, the European Conference on Information Systems. ISAIS rotates annually between the University of Melbourne (Australia), Hasselt University (Belgium) and Michigan State University (USA).

The objective of ISAIS is to bring together researchers from all disciplines related to Accounting Information Systems (AIS). Topics of interest include, but are not limited to topics on the intersection of accounting and: AIS development, internal control developments, strategic information systems, cultural influences on AIS, business intelligence, decision aids, business process management, audit and assurance regarding AIS, continuous auditing and reporting, enterprise resource planning, knowledge management, XBRL, process mining, data-analytics, distributed ledgers, RPA …

Various recent technologies pose challenges and represent opportunities that have the potential to completely disrupt the whole spectrum of phenomena that AIS is interested in. While the AIS research field is identified by its cross-discipline character, **we specifically (re-)articulate the ambition of reaching out to neighboring communities including information systems research, business process management and systems engineering**. Having ISAIS as a pre-ECIS workshop is a clear signal towards this ambition. In this way, we aim to further broaden the expertise and scope of discussions beyond the circle of accounting (information systems) researchers who are traditionally strongest represented at ISAIS.

The **2024 ISAIS program** will include a keynote, complemented with journal quality paper presentations. Tentatively, a tutorial will further enrich the program. More details on the exact program will be shared later.

The emphasis of ISAIS is on interaction, discussion, and debate in a friendly, supportive and relaxed atmosphere. At the same time, the intent of ISAIS is to provide a global forum for bringing the leading AIS researchers and developing scholars together to discuss and critique leading-edge research in the field.

Submission instructions

There are two types of submissions: regular submissions for completed research papers of journal paper quality and research forum submissions for work-in-progress. We particularly encourage doctoral students and junior researchers to also submit their research. If completed, then the paper will be eligible for regular submission, else the paper can be submitted to the research forum.

At least one author for every accepted paper must register for the Symposium and be prepared to present their ideas. At the option of the authors at time of submission, papers can also be considered for publication in the *International Journal of Accounting Information Systems* (IJAIS).

ISAIS (Symposium Only) Submissions

All papers are to be submitted via EasyChair: https://easychair.org/conferences/?conf=isais2024. Please make sure to provide anonymous manuscripts (no author names on the pdf).

ISAIS and IJAIS (Dual Consideration) Submissions

At the authors' prerogative, submitted papers can also be considered for publication in the *International Journal of Accounting Information Systems* (IJAIS). These papers should constitute original research that is not currently being considered for publication or has not been previously published elsewhere. For concurrent consideration at <u>both</u> the ISAIS Symposium and IJAIS, authors should submit their manuscripts using the Elsevier online submission system at:
https://www.journals.elsevier.com/international-journal-of-accounting-information-systems/ **and** via EasyChair: https://easychair.org/conferences/?conf=isais2024

Please clearly specify in your cover letters to IJAIS and ISAIS that your submission is a dual submission and is intended for presentation at ISAIS 2024.

Review process
The review process will include two reviews per paper. The aim is to have one review provided by an Accounting research PC member and one by an Information Systems PC member.

Key dates
Submission deadline: March 15, 2024
Notification of decision: May 1, 2024
ISAIS 2024: June 15-16, 2024

Organisation

General chair
Mieke Jans - Hasselt University, Belgium & Maastricht University, The Netherlands

Organizing Committee
Manal Laghmouch - Hasselt University, Belgium & Maastricht University, The Netherlands
Shameer Pradhan – Hasselt University, Belgium

Program Committee Chair
Mieke Jans - Hasselt University, Belgium & Maastricht University, The Netherlands

Program Committee (tentative)
Helen Brown-Liburd (The State University of New Jersey, United States)
Michael Davern (The University of Melbourne, Australia)
Dennis Fehrenbacher (University of Sankt-Gallen, Switserland)
Gregory Gerard (Florida State University, USA)
Severin Grabski (Michigan State University, USA)
Peter Green (Queensland University of Technology, Australia)
Stewart Leech (The University of Melbourne, Australia)
Angela Liew (The University of Auckland, New Zealand)
Jan Mendling (HU Berlin, Germany)
Uday Murthy (University of South Florida, US)
Steve Sutton (University of Central Florida, USA)
Indrit Troshani (University of Adelaide, Australia)
Eddy Vaassen (Tilburg University, The Netherlands)
Miklos Vasarhelyi Rutgers (The State University of New Jersey, US)
Bernhard Wieder (University of Technology, Sydney)
Carla Wilkin (Monash University, Australia)
